

The Top 25 Most Popular Offices of 2017

It is that time again for our annual look back at what people were interested in throughout the past year: **The Top 25 Most Popular Offices of 2017**.

Past lists: [2016](#), [2015](#), [2014](#), [2013](#), [2012](#)

With new yearly records in site traffic as well as an increase in the number of projects on the site up to nearly 3,500 offices by some 1,000 architecture and design firms, 2017 has proven to be another exceptional year.

New Sites

After years of thinking about it, we've also recently launched two new sites focused on education and healthcare environments.

Both types of design are vitally important to everyday life and there just aren't enough great resources dedicated to either. We are looking forward to publishing your projects and inspiring you!

Improved Data

Beyond just publishing projects, we've also been working hard behind the scenes to improve much of the data on the site.

One example are the lighting tags we use to categorize project imagery: instead of 5 generic categories, we now use 25 industry-specific tags which help our readers find photos with what they are looking for faster (see [Perimeter/Grazer](#), [Recessed Downlight](#), or [Cylinder/Round](#) for example).

New Brands, New Products

This year saw quite a few new brands adding their furniture, products, and services to our [office design product catalog](#): David Trubridge, Armstrong Ceilings, Boss Design, BuzzSpace, Fluxwerx, ICF, Unika Vaev, Prudential Lighting, Allseating, Workagile, Klein, Global Furniture Group, Jabrrbox, and naughtone.

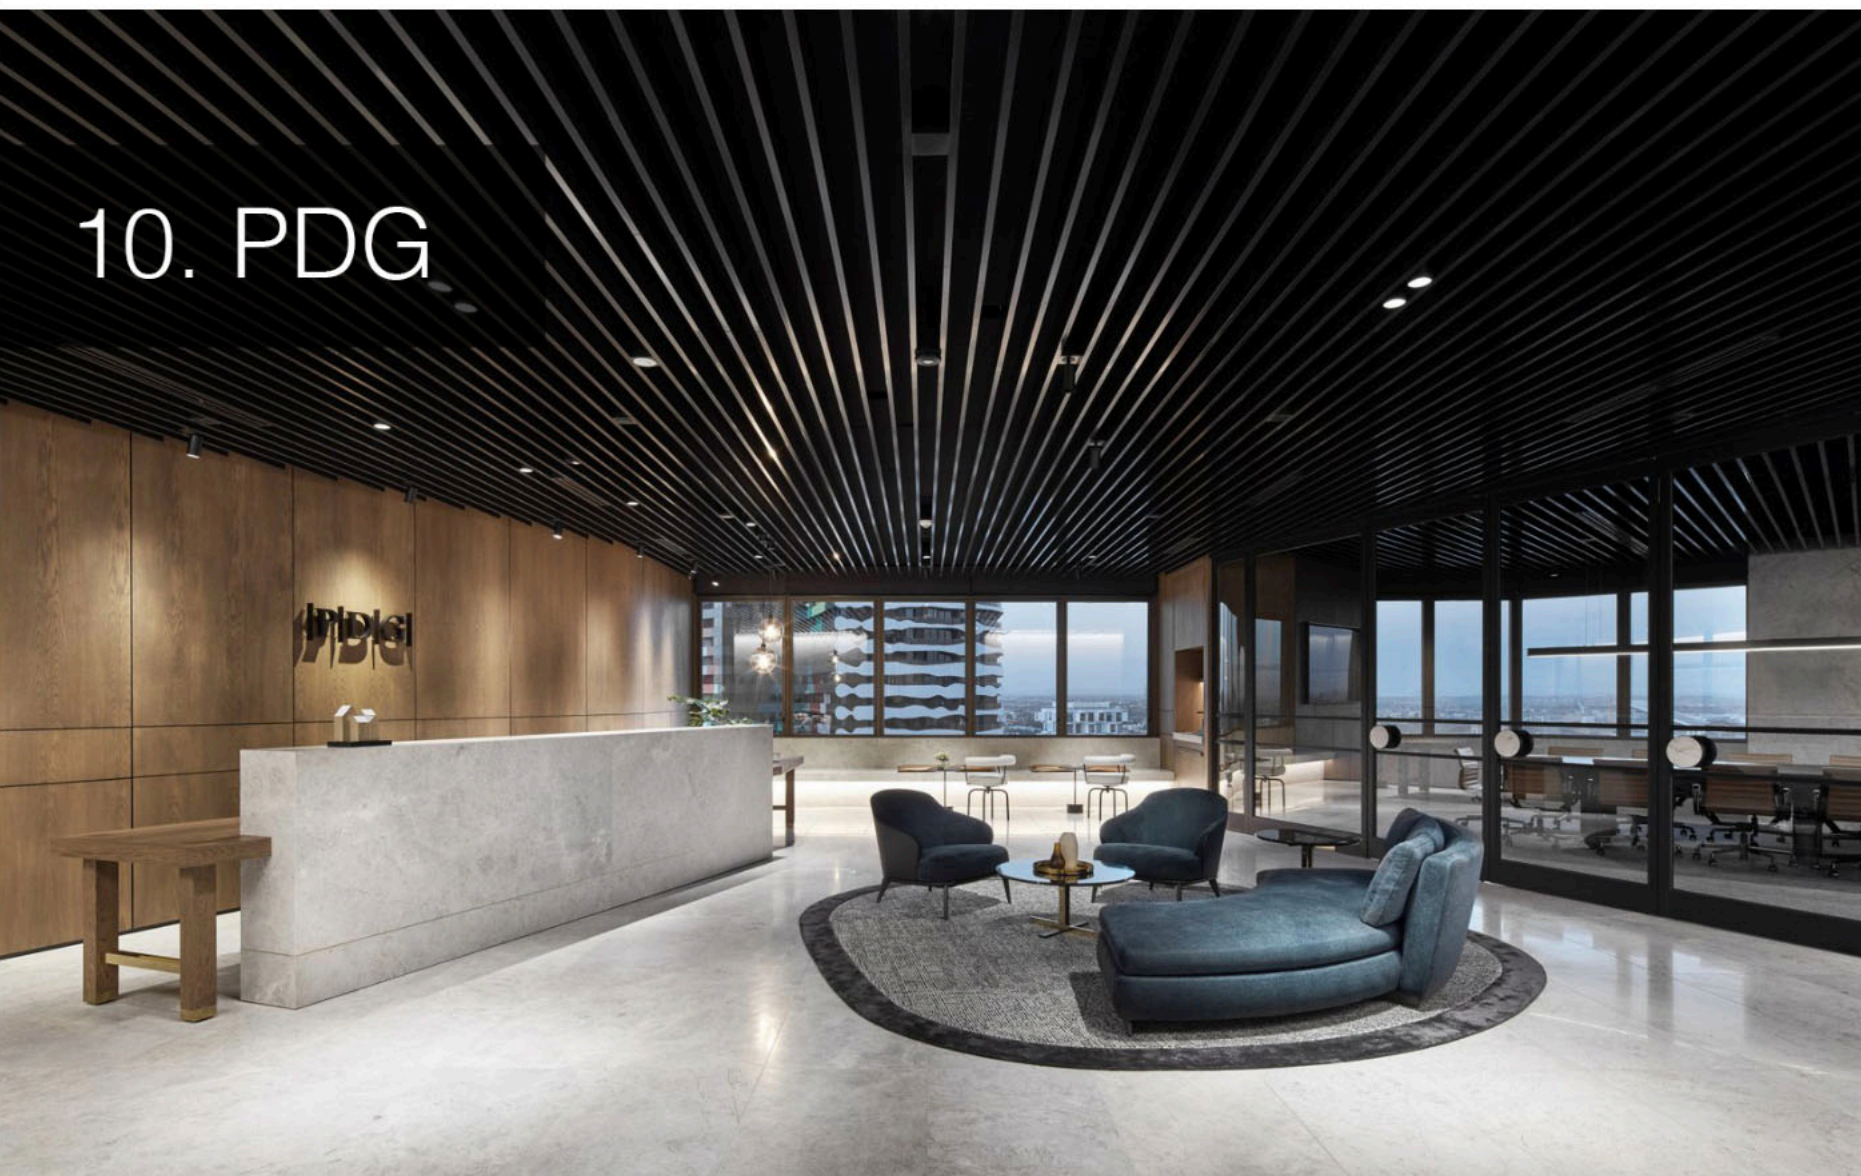

If your brand is not already a part of the site, [get in touch here](#).

Original Content & Articles

One of the things we have been most excited about is the opportunity to interview and introduce our readers to firms like [Assembly](#), [Bean Buro](#), [Garcia Tamjidi Architecture Design](#), and [Futurespace](#).

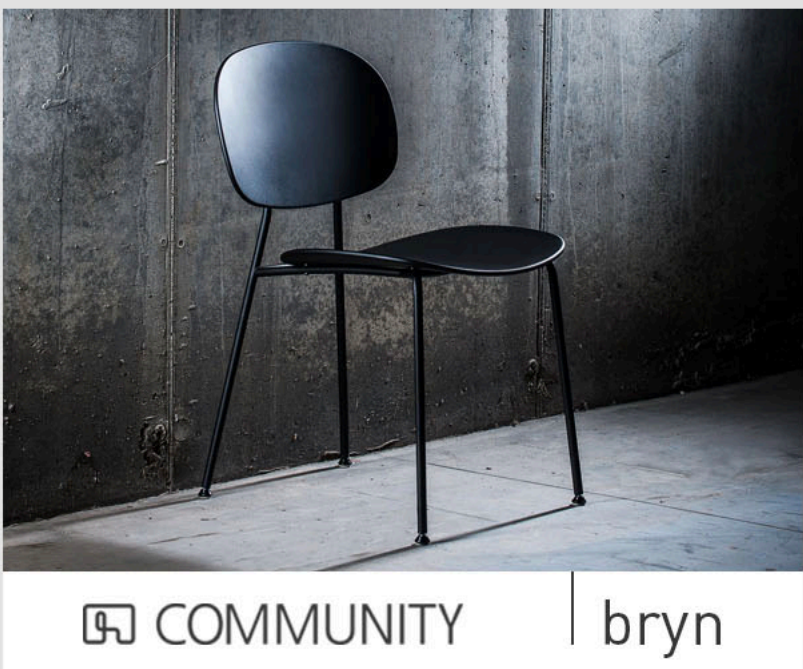

Thank you for making 2017 such an amazing year!

Now onto the winners...
